**THE COLLEGE
CHARCHA**

MESSAGE FROM THE DIRECTOR

Dear KSJCians,

Intermediate is a highway bridge between your schooling system and undergrad education. While the schools emphasized on fundamentals and built a strong foundation in academics, ethics, core values etc., the undergrad education will shape your careers. This bridge in between called the Intermediate should ensure you travel the road and reach your destination without losing focus. At KSJC we believe in 360° development. While academics is our top priority we strive for STRESS free environment and ensure all round development. I would like to proudly announce the launch of Campus Charcha, our monthly college magazine, the only college to run a magazine at Intermediate level. I would like to congratulate all the students for their enthusiasm for this initiative which will be entirely run and managed by them. The magazine aims to summarize all the happenings in the college on a monthly basis. It encourages students to exhibit their talent through various art forms like drawing, sketching, poetry, current affairs etc. It will also highlight student achievements, events, workshops etc.

It is my firm belief that such initiatives will encourage students to participate wholeheartedly and make their two years with us more memorable.

-Aditya Godse

ACHIEVEMENTS

Congratulations to the Students and Parents
Best Ranks in EAMCET 2020-21

KALERU PALLAVI
HT No: 2124A04044
Rank: **815**

BHARGAVI ACHARYA
HT No: 2122D07047
Rank: **2939**

NERALLA SREEVALLI
HT No: 2126A02775
Rank: **3153**

BHARTHEPUDI AASISH
HT No: 2123A03479
Rank: **3451**

We are proud of you !!!

Success never ends, coming up with more

SCIENCE LABS

Ksjc is happy to inform that we are the only college in Hyderabad who have started sessions in physics and chemistry labs. These lab sessions are conducted by Dr. Vishwanath Gogte.

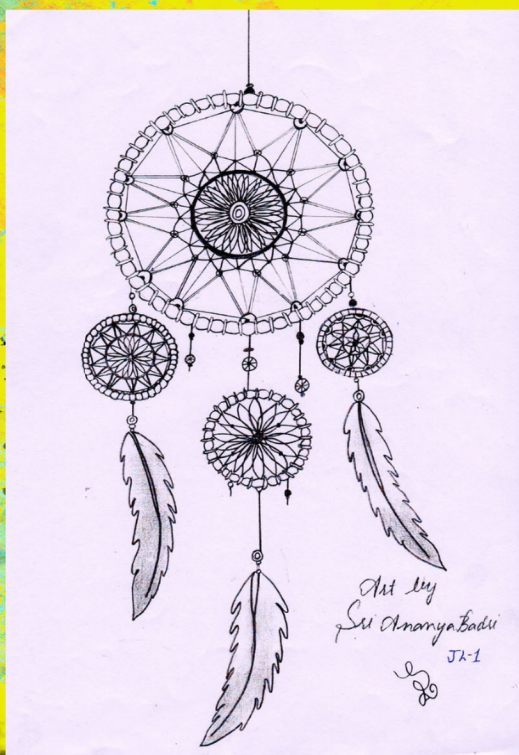

He is a practicing Eye specialist and a general physician. Out of passion to teach science to students he had started Science on wheels - Vignan Vahini almost 2 decades back.

He regularly visits schools like Vidyaranya, Chaitanya Vidyalaya, Geetanjali etc., and teaches students Science through experiments.

KSJC is lucky to have him onboard and students are gaining practical knowledge and strong foundation in Science.

The Hidden Talent!!!

Expressing your thoughts on your paper, enhances your skill.

Do now, sometimes "LATER" become "Never"

LOVE

Happiness Shouldn't Be like a deal,
If it's deal then it's like a lonely file.

Always Smile like a beautiful Tart,
Then there is no Envy in your Heart.

Always be like a Twinkle,
Where there is no chance for a Negative Glim.

Always be the one you are and smile,
It is the matter to flywheel.

T. Santhi Bhosnik

Star Dust

Your voice is all I hear,
Looking at the stars.
Everything I told you,
We two kept a secret,
That we were falling apart.
A little life,

Oh My Star,
Now it's me before you,
and this time I could even ~~star~~
race with the rain...

I'm hating myself, I'm hating you!

- Prasuthy

GREAT THINGS
IN EVERY CORNER COME FROM
STAYING IN YOUR
COMFORT ZONE
TAKE A BIG CHANCE
DO THE THINGS THAT
SCARE YOU

Shivani JL-1

FOR OUR WARRIORS

When the whole world is in quarantine,
You are fighting against Covid-19.

You left your aspires,
To protect us from fire.

When everyone is threatened,
You have not stopped your work for single second.

We just have to maintain social distance,
to overcome our present circumstance.

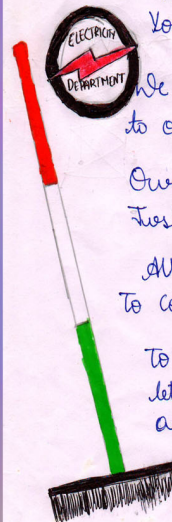

Our lifestyles need just a small amendment,
Just follow guidelines of government.

All should take the responsibility,
To continue the nation's stability.

To prevent all this from becoming a galaxy,
lets become a saviour by staying home
and supporting our warriors.

T. Sri Lakshmi
